O-TERRACE

Maintenance and cleaning.
It is always better to remove marks as soon as possible, using water, mild cleaner and a sponge. In most cases, your O-Terrace deck can be cleaned with just high pressure cleaner combined, if necessary, with mild cleaning product. For foodmarks (ketchup, wine, soup, fruit juice, cola, coffee, tea,...) scrub well with diluted bleach solution, then rinse with large quantity of water.
O-Clean cleanser is appropriate for most of oily marks, butter, silicone and glue.
For more information, please contact your retailer or visit our website www.twinson.net

Underhoud en reinigbaarheid
Het is raadzaam om vlekken van gelijk welke aard steeds zo snel mogelijk te verwijderen met water, een mild reinigingsproduct en een spons. In de meeste gevallen is je O-Terrace terras al proper met enkel een hogedrukreiniger eventueel in combinatie met een mild reinigingsproduct.
Voor voedselvlekken (ketchup, wijn, soep, fruitsap, cola, koffie, thee,...): gebruik een verdunde bleekwater-oplossing, goed schrobben en daarna overvloedig afspelen met water.
O-Clean reinigingsproduct kan gebruikt worden voor de meeste olie-vlekken, boter, silicone en lijm.

Entretien et nettoyage
Il est toujours conseillé d'éliminer les taches de quelque nature que ce soit le plus rapidement possible avec de l'eau, un détergent doux et une éponge. Dans la plupart des cas, votre terrasse peut être nettoyée avec simplement un nettoyeur haute pression, éventuellement en combinaison avec un détergent doux.
Pour les taches d'alimentation (le ketchup, le vin, la soupe, le jus de fruits, le cola, le café, le thé,...) frottez énergiquement avec de l'eau de javel diluée et rincez ensuite abondamment à l'eau.
Le détergent O-Clean peut être appliqué pour la plupart des taches d'huile, le beurre, la silicone et la colle.
Pour plus amples informations, veuillez contacter votre distributeur ou visitez notre site www.twinson.net

Wartung und Reinigung
Es ist von Vorteil, Flecken so rasch wie möglich zu entfernen. Das kann mit Wasser, einem milden Reinigungsmittel und einem Schwamm geschehen. Ihre O-Terrace Terrasse kann in meisten Fällen nur mit einem Hochdruckreiniger, eventuell zusammen mit einem milden Reinigungsmittel, gereinigt werden.
Für Nahrungsflecken (Tomatenpüree, Wein, Suppe, Fruchtsaft, Cola, Kaffee, Tee,...) eine verdünnte Bleichwasserlösung verwenden, gut schrubben und dann ausgiebig mit Wasser abspülen.
O-Clean Reinigungsprodukt ist für die meisten Ölflecken, Butter, Silikon und Leim geeignet.

P9555: general guidelines

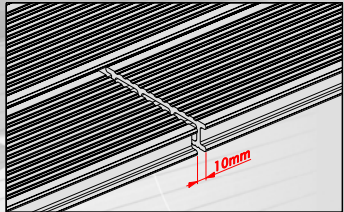

Dilatation P9555

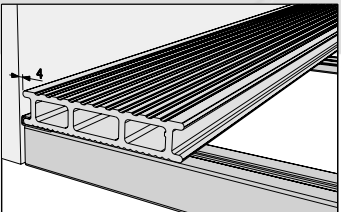

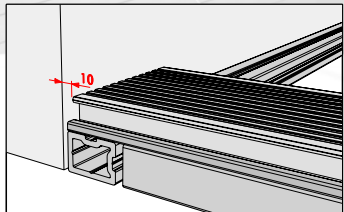

Basic rule: 3mm per linear metre

- Ⓒ If a dilatation of at least 3mm/m cannot be guaranteed then you need to subdivide the planks into different modules and/or use the P9543 profile.
- Ⓓ Als er geen uitzetting van tenminste 3mm/m kan gegarandeerd worden, dan moet je de planken in verschillende modules opdelen en/of P 9543 gebruiken
- Ⓔ Si une dilatation d'un minimum de 3mm/m ne peut être garantie, il faudra adapter les dimensions de vos planches et/ou utiliser le profilé P9543
- Ⓕ Wenn eine Ausdehnung von 3 mm/m nicht gewährleistet werden kann, müssen die Bretter in verschiedene Längen aufgeteilt werden und/oder muss P 9543 verwendet werden.

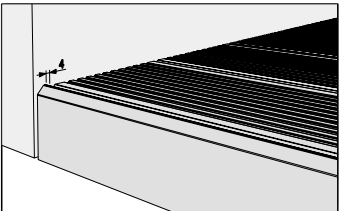

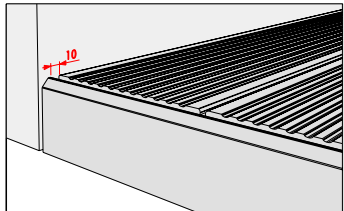

1. Between the planks
Linear: 10mm

2. Between wall and plank

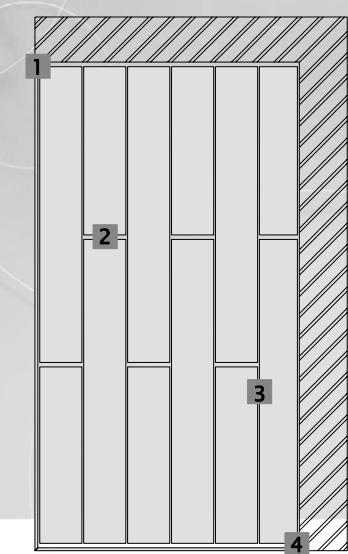

3. Between plank and plint

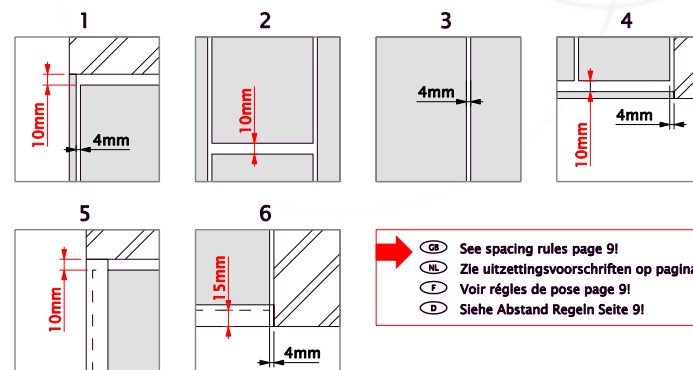

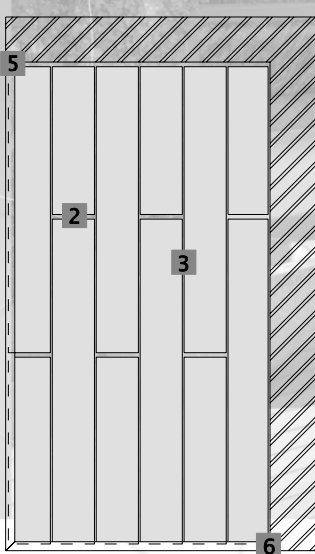

Expansion rules: overview
