MEDINIAI NAMAI

# Terraces and Arbours

Graceful wooden structures to remodel your normal environment, to bring together family and friends and enjoy each moment of the short summer season.

# Terraces

## Create yourself a patio from suitable basic elements.

- A modular patio can be easily assembled according to the attached installation scheme.
- Our terraces are made of vacuum impregnated pine;
- 22 mm thick floor boards are attached with stainless steel nails;
- Terrace height from the ground 230-500 mm;
- Deep impregnated Tanalith E protects the wood from mould, fungus and wood rodents for about 20 years; - To reduce the slip, grooves are milled in the boards used for stair steps;
